

80% of us live within this map showing Useless hydrants (RED), & Crippled hydrants with 10% to 30% capacity (SILVER)

No one is coming to rescue us.
In spite of our best hopes, there are no State or Federal grants to fix the problem with our Water Mains.
Hope is not a plan.

mansfieldwatermaininitiative.com

Mansfield has 385 hydrants that don't work.

More than 60 miles of water mains in the city cannot deliver the volume needed to fight fires.

The Water Main Initiative is organized by citizens—our neighbors—to take action.
